The biggest "set" ever used in the production of a photodrama will be seen here when "Carmen" is presented by the Jesse L. Lasky Feature Play company, with the famous operatic prima donna, Geraldine Farrar, in the title role. This is an exact replica of the Plaza de Toros in Seville. The plans of the building were made from old sketches and the scheme carried out even to the smallest detail. Over 25 tons of plaster of paris were used in the construction of the houses and the exterior of the bull ring. The entire "set" is over 40 feet high and covers over 300 feet of ground and is shown in but one scene. See this Wednesday afternoon and evening. Special music. Large orchestra—adv.
